OCTOBER	161	107	268	23	24***	105	65	452/4****
NOVEMBER								
DECEMBER								
TOTAL								

*There are two sets of numbers in the report I get and generally they match up. For February's report, they did not and I used one set instead of another. The previous number here was 397. I have corrected it to 368 to give the conservative number as the correct number. I don't know why there are disagreeing totals.

**There were 21 books and 1 magazine borrowed digitally

***There were 22 books and 2 magazine borrowed digitally

****The circulation stats did not match. I have shown both totals from two different reports.
